03 / WHY SOURCEFIELD

Commercial Discipline Before Commitment

Our value is the work applied between buyer demand and Australian supply: defining the requirement, evaluating commercial fit and keeping execution accountable.

01 REQUIREMENT-LED SOURCING

Supply is assessed against product, specification, packing, volume, destination and timing.

02 AUSTRALIAN SUPPLY ACCESS

Suitable supply is evaluated for availability, destination eligibility and commercial fit.

03 ONE COMMERCIAL COUNTERPARTY

Quotation, contracting, communication and transaction coordination remain connected.

04 GCC-FOCUSED EXECUTION

Halal, documentation, labelling and shipment requirements are considered before commitment.

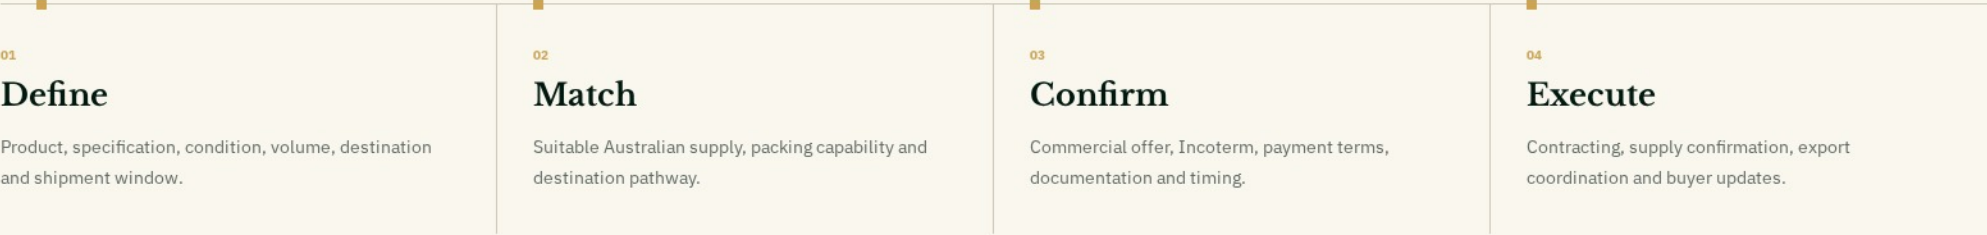

One accountable Australian commercial counterparty.

04 / EXECUTION

From Requirement to Shipment

Sourcefield manages the commercial transaction and remains the buyer’s point of contact throughout execution.

TRANSACTION CONTROLS

Specification · Packing · Documents · Timing

Commercial communication remains connected throughout.

05 / EXPORT & COMPLIANCE

Evidence Matched to the Transaction

Compliance is not presented as a generic marketing guarantee. Product, establishment, halal pathway and destination requirements are reviewed for the proposed supply.

01

AUSTRALIAN EXPORT PATHWAY

Product and establishment suitability are considered against destination requirements.

02

HALAL CHAIN OF ASSURANCE

Applicable halal program, recognised certifier and consignment evidence are matched.

03

SHIPMENT DOCUMENTATION

Commercial, health, halal, origin and transport documents are coordinated as applicable.

EVIDENCE BEFORE ASSUMPTION

Transaction-specific evidence is supplied by the responsible establishment, exporter and certifying organisation. Sourcefield does not represent unsupported company-held certification marks or licence numbers.
